PROFILE

An Account/Project Manager with **5+ years of experience** across web development and account/project management, including 3+ years of hands-on experience in building and developing websites. The technical background helps me plan realistically, catch risks early, and build automation instead of just tracking deliverables. I currently manage **50+ projects** and **lead a 15-person** cross-functional team across **Development, Content, SEO, Digital Marketing, and Automation** with 40+ industries, working directly with stakeholders on requirements, timelines, and delivery.

CORE COMPETENCIES & TECHNICAL SKILLS

- **Project Management**: Project Planning & Scheduling, Resource Allocation, Risk Management, Milestone/QA Checkpoints, Scope Management.
- **Stakeholder & Client Management**: Requirement Gathering, Client Communication, Escalation Resolution, Monthly Reporting, Client Retention.
- **Team Leadership**: Cross-Functional Team Coordination, Task Delegation, Performance Reviews, Conflict Resolution.
- **Tools**: Notion (workflow & tracking systems), Google Sheets & Docs (process automation), Git/GitHub, Antigravity, Figma.
- **Technical**: HTML5, CSS3, JavaScript, Python, Django, MySQL/PostgreSQL, WordPress, Shopify, SEO Strategy & Website Auditing, Website Architecture Planning.
- **Analytics & Web Platforms**: Google Search Console, Google Analytics (GA4), Google Tag Manager, Bing Webmaster Tools, Cloudflare, RankMath.

EXPERIENCE

Account/Project Manager — Blank Analytica, Mumbai Aug 2024 – Present

Project Management | 50+ projects across 40+ industries

- Delivered **50+ projects** within defined timelines, scope, and efficiency, acting as project lead from kickoff through delivery.
- **Planned resourcing** and **allocation tasks** across 50+ projects, balancing team capacity against deadlines.
- **Ran QA checkpoints** and risk reviews at project milestones, cutting rework by **25%.**
- Built the team's **Notion-based project tracking system**, adopted as the standard workflow across all previous and current projects.
- Created **10+ Web UI designs** using AI tools, Google Stitch, Figma, and Antigravity.

Client Management | 50+ clients across 40+ industries

- Served as **primary point of contact** between clients and developers & SEO team, translating stakeholder requirements into actionable project briefs and advising clients on strategy and improvements.
- Tracked **timelines and deliverables** across concurrent projects, flagging risks before they became delays.

- **Built SOPs and workflow documentation** that reduced onboarding time for new team members.
- Prepared and delivered **monthly progress reports** that kept client retention and renewal rates high.
- Owned client onboarding end-to-end, resolving escalations with a **24–48hr turnaround**.

Team Management | 15+ team members across 5 departments

- Coordinated across Developers, Content, SEO, Digital Marketing, and Automation **departments** to keep cross-functional projects aligned, guiding teams through cross-department issues.
- **Assigned roles and tasks** as per skill and bandwidth, keeping team members productively utilized.
- Led performance check-ins and conflict resolution for a **15-person team**.

Design, Automation & Website Planning | 10+ UI/UX Designs & 15+ Automations

- **Built SEO automation tools** for sitemap analysis, H1 checks, metadata extraction, and technical SEO audits using Google Sheets, cutting manual audit time from **2–4 hours**.
- **Automated WooCommerce** product data and custom post-type uploads through ACF field mapping and Google Sheets integration, reducing upload time by **2–8 hours** depending on data volume.
- Created SEO-friendly website structures and content plans for **10+ websites**, including hyperlocal landing pages and scalable SEO architecture.
- Developed a **WhatsApp privacy extension** with chat-masking and selective-reveal functionality.
- Created 10+ modern web designs with **GSAP animations,** parallax effects, and scroll interactions.

WordPress Developer (Contractual) — Beryl Agency Nov 2023 – Jan 2024

- Collaborated with Beryl to create and maintain responsive, user-friendly websites.
- Implemented front-end and back-end solutions using WPBakery, ensuring optimal website performance.

Web Developer — Freelance Nov 2021 – Aug 2024

- Developed and maintained websites for various clients and industries, ensuring functionality and mobile responsiveness.
- Utilized a range of technologies, including HTML, CSS, JavaScript, Bootstrap, Python, Django, and WordPress.

Intern, Python Django Developer — Homi Bhabha Centre for Science Education (TIFR) Jun 2021 – Sept 2021

- Gained hands-on experience in web development and Python and Django programming.
- Created a Hotel Booking System with conflict-free booking logic in Django.
- Helped develop and maintain the organization's projects.
